Technology/Innovation/Service/Performance

# Cardinal Colorful & PANTONE® Perfect

These swatches represent only a few of the color possibilities from Cardinal. Liquid finishes are available in water-borne and solvent-borne coatings and supported with primers in single and two-component formulations. We've also simplified ordering with color codes that are universal, regardless of type of finish. You can have a match to your color in any finish you specify. And now, you can also specify colors perfectly matched to the internationally-recognized PANTONE MATCHING SYSTEM®, the color system preferred by most designers and product engineers. What you're seeing is the Cardinal difference spelled out in four words that add up to a superior choice in industrial finishes:

## Technology/Innovation/Service/Performance

### Waterborne/Water Reducible Low-Cure Systems (Compliant)

- 3200 Series Fast dry polyurethane dispersion
- 3600 Series Fast dry acrylic emulsion
- 3700 Series Fast dry acrylic emulsion for plastic surfaces
- 4000 Series Alkyd maintenance enamel

### Waterborne Baking Systems (Compliant)

- 8100 Series Acrylic enamel

### Waterborne Primer Systems (Compliant)

- 3760 Series Acrylic emulsion for plastic surfaces
- 3860 Series Acrylic emulsion for general purpose

### Solvent Air-Dry Systems (Compliant)

- 4300 Series Fast dry alkyd maintenance enamel
- 4900 Series Fast dry alkyd maintenance enamel
- 6400 Series Two-component polyester polyurethane
- 6500 Series Two-component equipment polyurethane
- 6600 Series Two-component extreme performance polyurethane
- 7100 Series Two-component epoxy
- 7700 Series Two-component epoxy floor coating

### Solvent Air-Dry Systems (Conventional)

- 2000 Series Fast dry nitrocellulose lacquer
- 6100 Series Two-component acrylic/polyester polyurethane (interior use)
- 6300 Series Two-component acrylic/polyester polyurethane (interior and exterior use)

### Solvent Baking Systems (Compliant)

- 9000 Series Polyester baking enamel
- 9300 Series Alkyd baking enamel

### Solvent Baking Systems (Conventional)

- 5000 Series Alkyd baking enamel

### Solvent Primer Systems (Compliant)

- 4360 Series Alkyd maintenance primer
- 4560 Series Surfacing primer
- 4860 Series Two-component acid wash primer
- 6460 Series Two-component polyester polyurethane primer
- 7063 Series Two-component epoxy primer

### Touch Up Paint Solutions

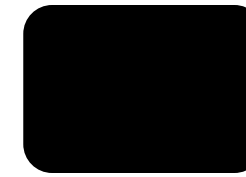

- A-2000 Series Nitrocellulose aerosol paint
- A-4100 Series Acrylic lacquer aerosol paint
- 3200 Series Waterborne urethane paint in small bottles and cans
- 3600 Series Waterborne acrylic paint in small bottles and cans
- 4300 Series Solvent alkyd enamel in non-aerosol cans

### Wiping Solutions

- W-200-A Metal prep without acid
- W-303-A Acid metal conditioner (for use on galvanized, aluminum and zinc surfaces)
- W-400-A Surface neutralizer to remove salt residue from phosphated substrates
- W-500-A Metal prep with acid
- W-600-A Line cleaning solution
- W-700-A Special plastic adhesion promoter

### Specialty Coatings

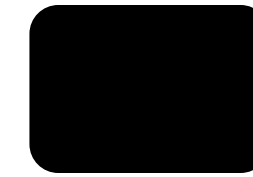

Anti-Graffiti, Cardtex, Velvathane Flat Black, Self-Texture and Custom Formulations to meet your coating requirements

BK08 Matte Black

BK05 Semi-Gloss Black

BK12 Gloss Black

GR09 ANSI 49 Gray

GR16 ANSI 61 Gray

GR10 Light Gunmetal Gray

BL01 Blue

BL05 Light Blue

GN03 Green

RD03 Red

YL01 Yellow

OG01 Orange

WH08 Matte White

WH12 Gloss White

BG01 Beige

YL86 Cat Yellow

GN293 Container Green

BL342 Container Blue

These are only a few of the color possibilities from Cardinal. We accurately match any sample color that you provide. And, we are licensed to match the internationally-recognized PANTONE MATCHING SYSTEM® colors.

These color samples are representative only and will vary from the actual color depending on the computer monitor or printer used to view them. For an accurate color, gloss and texture sample, contact a Cardinal representative.
